REPLIFACT
Media

DVD Label

Outer circle

116mm

Inner circle

20mm

■ = Printable area

Note

On full color labels we always print a white base.

When there is no white base, we recommend to use a 47mm center hole. This is to avoid interference with text, logo's and images and the DVD's inner circle inscription.

Attention: Text and logo's have to be kept away from edges with a minimum of 2mm
Lay out in CMYK (no RGB) with a minimum resolution of 300 DPI | The design should be submitted in PDF format
